

CLIV Hydration & Soothing Line

The CLIV Hydration & Soothing Line range of skin care products has been scientifically formulated for intense, long lasting hydration action and rapid absorption by the skin. Made with all natural plant extracts, the range is especially beneficial to restore and invigorate dry and sensitive skin after laser, light and peeling treatment.

Ultra Hydra Gel
50ml

Ultra Hydra Gel

Ultra Hydra Gel soothes, freshens and calms irritated and sensitive skin after peeling, laser and IPL treatments with intense, long lasting moisturising action. By maintaining and supplementing the skin's natural moisture levels, Ultra Hydra Gel helps to normalise the natural cell turnover cycle and keep the skin smooth and supple.

Active ingredients

Aloe vera gel, hyaluronic acid, portulaca oleracea extract, autumn pumpkin extract, Vitamin B5, glycyrrhizic acid derivative

Ultra Hydra Serum
30ml

Ultra Hydra Serum

Ultra Hydra Serum uses a carefully formulated combination of hyaluronic acid, panthenol, portulaca oleracea extract and other special selected compounds to hydrate and provide rapid relief to dry and sensitive skin. Hyaluronic acid helps to hydrate and maintain skin moisture while Vitamin B5 forms a protective barrier that prevents skin drying.

Active ingredients

Hyaluronic acid, aloe vera gel, portulaca oleracea extract, potato extract, Vitamin B5, paeonia suffruticosa root extract

Ultra Hydra Cream
50ml

Ultra Hydra Cream

A deep reaching, fast acting cream that nourishes, hydrates and revitalises tired, dehydrated skin. Ultra Hydra Cream is hypoallergenic and safe for use for all skin types and is of benefit in caring for hypersensitive skin, especially after peeling, lasers and light therapy. Using carefully selected, scientifically tested ingredients, Ultra Hydra Cream is designed to deliver nutrients deep into the skin to revitalise it and bring back a natural, healthy glow.

Active ingredients

Hyaluronic acid, betaine, portulaca oleracea extract, aloe vera gel, licorice extract

Hydroderm Aloe Gel
1000ml

Hydroderm Aloe Gel

Hydroderm Aloe Gel is a versatile gel that provides immediate soothing relief for sun burnt or dry skin. It can also be applied as a deep moisturising gel for sensitive and dry skin. Hydroderm Aloe Gel uses vegetable collagen ingredients (natto gum, allantoin and hyaluronic acid) that help to make dry and rough skin supple and smooth again while protecting it from harmful UV rays that can cause premature aging and skin damage.

Active ingredients

Natural aloe extract, natto gum, hyaluronic acid, allantoin, Vitamin B5
