

Medipeel Peeling Line

CLIV

The CL IV Medipeel Peeling Line is a complete range of skin care products for prescription by dermatologists and physicians that has been scientifically formulated to safely, effectively and gently peel and remove excessive or aged keratin on the skin. By removing this excess and aged keratin, the Medipeel Peeling Line helps refine skin texture and retain skin moisture.

- * **Skin moisturisation** (the combination of Medipeel 30 or Medipeel 25 with Medipeel Algae powder forms a layer that protects and moisturises the skin).
- * **Prevents and eliminates skin hypersensitivity** by creating a protective layer that mitigates the effects of chemical peels.
- * **Restores skin tone and texture** by strengthening skin cells and creating a visible pore tightening effect.

Medipeel 30 (30ml)

Medipeel 30 is a stronger professional skin peel solution that promotes skin renewal by removing dead skin cells and unblocking clogged skin pores while moisturising and soothing the skin. By removing excess keratin, Medipeel 30 creates a skin rejuvenating effect and promotes cell regeneration and turnover, thus working in a natural way from the ground up to create firmer, healthier skin.

Main ingredients

A.H.A (30%), allantoin, licorice extract, chamomile extract, Vitamin B5, papaya extract

Medipeel Solution (60ml)

Medipeel Solution acts to reduce inflammation and redness, soothing treated or sensitive skin especially after skin peeling procedures while forming a protective layer to minimise moisture loss. In addition, it acts to rehydrate the skin while forming a protective layer on the skin surface. Natural vegetable extracts making it hypo-allergenic and safe for all skin types.

Main ingredients

Xylitol, aloe vera gel, chamomile extract, glycyrrhizic acid derivatives, hyaluronic acid, cocoa extract, arbutin, Vitamin B5

Medipeel 25 (30ml)

A gentle peeling solution, Medipeel 25 encourages skin cell regeneration by peeling and removing rough and blemished skin. This gentle peeling effect also helps to reopen clogged skin pores. By doing this, it helps to normalise the body's secretion of sebum and cleans up blemishes and problem skin. Medipeel 25 also delivers moisturising and softening agents to dry and aged skin to make the skin supple and moist again.

Main ingredients

A.H.A (25%), B.H.A, algae extract, papaya extract

Medipeel Gel (50ml)

Medipeel Gel uses Alpha Hydroxy Acid (AHA) to effectively remove old keratin and clean the skin without damaging it. This cleansing action helps to normalise the skin regeneration cycle and acts to clear up blemishes and damaged skin, promoting long term skin well being.

Main ingredients

Chitosan, kiwi extract, A.H.A(10%), lemon extract, arginine

Algae Powder (20g)

A unique powder formulated from algae extract, Medipeel Algae Powder nourishes and moisturises the skin while preventing moisture loss from stress and other external factors in addition to promoting a skin tightening effect. The natural effects of the algae soothe angry or treated skin while forming a protective layer to minimise moisture loss. It can be used in conjunction with Medipeel 30 or Medipeel 25 in a 3:1 ratio for more effective treatment results.

Main ingredients

Laminaria extract, sea staghorn extract, algae extract, sea mustard extract, sea weed extract
