

CLIV Pigmentation Line

Containing potent Vitamin C and all natural skin lightening plant extracts, the CL IV Pigmentation Line has been specially formulated for intensive treatment of blemishes and dark complexions

C-Eye Vitalizer
15ml

C-Eye Vitalizer

C-Eye Revitalizer has been carefully formulated to nourish the sensitive areas around the eye even as it moisturises and protects it from the harsh external environment. It incorporates arbutin, a compound known for its beneficial effect to brighten up dark and uneven areas around the eyes while Tocopheryl acetate helps to nourish firm up the skin and minimise eye bags.

Active ingredients

Sophora flavescens extract, morus alba bark extract, arbutin, adenosine, vitamin K complex, vitamic C derivative, vitamin E, hydrolyzed wheat protein

C 10 Serum
30ml

C 10 Serum

C 10 Serum has been formulated to effectively deliver vital nutrients deep into skin tissue via easy absorption by the skin. The product contains pure vitamin C that has been stabilised with bio-polymer complex to ensure efficacy. Pure vitamin C acts to refine dark skin both internal and externally. Additional selected plant extracts have been incorporated to revitalise and hydrate skin.

Active ingredients

Vitamin C, Hyaluronic acid, morus alba bark extract, lemon extract, kiwi extract, licorice acid derivative

C Cream
30ml

C Cream

C Cream is a soothing cream that contains only natural plant extracts. It can be applied to hypersensitive skin and blemishes without any complications. All natural skin lightening compounds and tocopheryl acetate act to nourish and gently brighten dark and rough skin. Chemically stabilised vegetable ingredients act to even out darkened and uneven skin caused by stress and environmental factors.

Active ingredients

Squalane, Vitamin E derivative, arbutin, adenosine, hyaluronic acid, morus alba bark extract, portulaca oleracea extract, vitamin C
